

Lea Dervieux

PROFESSIONAL SUMMARY

Final-year Master's student in Mathematical Engineering and Data Science. Highly motivated to apply my analytical and modeling skills within a dynamic team. Seeking a 6-month internship starting in early 2027 to contribute to data-driven projects and gain hands-on experience in a professional environment.

SKILLS

Languages : Python, R, SQL, C++, C
Data and Visualization : SQL, Power BI, Pandas, Matplotlib
Cloud : Microsoft Azure
Machine/Deep Learning : scikit-learn, TensorFlow, Keras, PyTorch

LANGUAGES

English	Toeic 860
French	Fluently
Spanish	Level A2

EDUCATION

Master in Mathematic Engineering and Data Science | 2022-2027

Polytech Clermont-Ferrand - Clermont Auvergne INP, Aubière, France

Focusing on AI, data analysis, and programming.

Bachelor of science in mathematics | 2022-2025

Université Clermont Auvergne, Aubière, France

Focusing statistics, algebra, differential equations.

PROJECTS

- Predictions of time series using neural networks: application to finance
- Develop a tetris in C and explain it in UML
- In groups of 2, recreate the naval battle game in Python

EXPERIENCE

Internship - The NORCE

Bergen, Norway

From March 2026 to July 2026

- Performed data analysis using R. Investigated gender bias in vasopressor administration
- Developed machine learning models in R to predict mortality using treatment and response data.

Bio-cleaning in a nursing-home

Centre Gériatrique du Val d'Or, Chasselay, France

Summers 2023, 2024, 2025

- Maintained of rooms, common areas and medical premises according to hospital hygiene protocols
- Contributed in the well-being and comfort of residents in collaboration with the care team
- Demonstrated rigor, organization, and respect for procedures

COMMITMENTS

- Collection of groceries for the association "Les Resto's du Coeur"
 - Humanitarian aid association PSF
 - Theater during 3 years
 - Horse riding and swimming pool during 7 years
 - Marine military preparation every other weekend for a year (2021-22)
-
